Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1274 O.G. 188, on September 30, 2003.

Either the United States Patent and Trademark Office (USPTO) or the European Patent Office (EPO) may act as the International Searching Authority (ISA) for an international application filed with the United States Receiving Office or the International Bureau (IB) as Receiving Office where at least one of the applicants is either a national or resident of the United States of America. However, the EPO is no longer a competent ISA, within the meaning of PCT Article 16(3), for international applications filed by U.S. residents or nationals on or after 01 March 2002 in the USPTO or IB as Receiving Office, and where the application contains one or more claims directed to the fields of biotechnology or business methods. For the definition of what the EPO considers to be precluded subject matter in the fields of biotechnology and business methods, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which is published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The European Patent Office may act as the International Preliminary Examining Authority (IPEA) for an international application filed in the United States Receiving Office or the International Bureau as Receiving Office where at least one of the applicants is either a national or resident of the United States of America, provided that the European Patent Office acted as the International Searching Authority. However, the EPO is no longer a competent IPEA, within the meaning of PCT Article 32(3), for international applications filed by US residents or nationals in the USPTO or IB as Receiving Office where the corresponding demand is filed with the EPO on or after 01 March 2002, and where the application contains one or more claims directed to the fields of biotechnology, business methods or telecommunication. For the definition of what the EPO considers to be precluded subject matter in the field of telecommunication, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which is published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The search fee of the European Patent Office was increased, effective September 1, 2003, and was announced in the *Official Gazette* at 1273 O.G. 80, on August 12, 2003.

International fees were changed, effective on April 15, 2003, due to a change in the exchange rate of the U.S. dollar with regard to the Swiss franc, and were announced in the *Official Gazette* at 1268 O.G. 76 on March 25, 2003. A change in the maximum number of designation fees payable, with effect from January 1, 2002, was announced in the *Official Gazette* at 1253 O.G. 88, on December 25, 2001. A change in the reduction for electronic filing, with effect from April 15, 2003, was announced in the *Official Gazette* at 1268 O.G. 76, on March 25, 2003.

Centralized Delivery and Facsimile Transmission Requirements for Patent Application Related Correspondence

Summary

To facilitate processing of correspondence into the Image File Wrapper (IFW) system, the United States Patent and Trademark Office (USPTO or Office) is revising its procedures to require that a single, centralized location be used for hand-carried and facsimile-transmitted patent application related incoming correspondence delivered to organizations reporting to the Commissioner of Patents (*e.g.*, Technology Centers, the Office of Patent Publication, and the Office of Petitions). Most other offices as listed below will continue receiving hand-carried and facsimile-transmitted correspondence at the same locations and at the same facsimile numbers. The centralized location for hand-carried correspondence is the existing Customer Window. The centralized facsimile number is **(703) 872-9306. The changes are effective December 1, 2003.**

Background

The Office is in the process of implementing an electronic image capture system to replace the standard paper processing of patent applications. Documents formerly placed in the paper file wrapper of pending patent applications (including the specification, oath or declaration, drawings, references, amendments, Office actions, foreign patent documents and non-patent literature of information disclosure statements and file jacket notations) are being electronically scanned and loaded into the Image File Wrapper (IFW) system. Once documents are loaded into the IFW system, examiners, technical support staff, other USPTO staff, and contractors will perform further processing and examination using the IFW system. *See Notification of United States Patent and Trademark Office Patent Application Records being Stored and Processed in Electronic Form, 1271 Off. Gaz. Pat. Office 100* (June 17, 2003).

PART 1. Central Delivery of Hand-Carried Patent Application Related Papers

A. CUSTOMER WINDOW

To effect a smooth transition into the IFW environment, the Office is requiring the use of the Customer Window for all hand-carried patent application related correspondence. This location will be equipped to perform the necessary sorting and routing of submissions for either electronic or paper processing.

The Customer Window is located at:

U.S. Patent and Trademark Office
2011 South Clark Place
Customer Window
Crystal Plaza Two, Lobby, Room 1B03
Arlington, VA 22202

Effective **December 1, 2003,** all official patent application related correspondence for organizations reporting to the Commissioner of Patents (e.g. Technology Centers, the Office of Patent Publication, and the Office of Petitions) that is hand-carried (or delivered by other delivery services, *e.g.*, FedEx, UPS, etc.) must be delivered to the Customer Window, with a few exceptions as listed below in Part C. Hand-carried application related correspondence will no longer be accepted in the Technology Centers (TCs), the Office of Patent Publication, and the Office of Petitions. Any courier who attempts delivery of an official application related correspondence at a TC (or where it is no longer permitted) will be re-directed to the Customer Window. Some time after the initial move to Carlyle, Alexandria, an additional depository in the Carlyle facility for hand-carried correspondence will be established. Patent application related compact disks (CDs) and other non-paper submissions that are hand-carried must be delivered to the Customer Window.

Correspondence may continue to be mailed via the United States Postal Service (USPS) and special Mail Stops (where appropriate) should continue to be used. *See Special Mail Stops for Patent and Trademark Mail, 1271 Off. Gaz. Pat. Office 67* (June 10, 2003). **The mailing address of the USPTO is not affected by this change in practice with regard to hand- carried or facsimile correspondence.**

B. Papers Requiring Immediate Office Attention (Hand-carried and Facsimile Transmissions)

Due to special Office procedures concerning the three below listed types of submissions, applicants are advised and encouraged to conspicuously mark "SPECIAL PROCEDURES SUBMISSION" on the top of the first page of these, **and only these**, documents whether they are hand-carried or sent by facsimile transmission, to the Office. Special alerting procedures will be followed for these documents after submission at the Customer Window or receipt by the central facsimile processing facility.

1. Petitions for express abandonment to avoid publication under 37 CFR 1.138(c).

2. Petitions to withdraw an application from issue under 37 CFR 1.313(c)(3).

3. Request for Expedited Examination of a design application (Rocket Docket).

C. Correspondence for Which Centralized Delivery of Hand-carried Papers is Not Required

Non-patent application related papers and a few exceptions to the general rule for patent application related correspondence may be delivered to specific non-central locations as set forth below. Thus, the following types of correspondence should **be delivered to the specific location where they are processed instead of** the Customer Window. Any such correspondence carried by error to the Customer Window will be accepted but then re-routed to the appropriate office, thereby incurring a delay before being processed.

1. All **non-application and non-specific application related correspondence**, such as questions on policy, on employment, or other general inquiries, may continue to be hand-carried or transmitted by facsimile to the current designated locations, depending on the substance of the correspondence.

2. Hand-carried requests to initiate, or related to ongoing ***ex parte* or *inter partes* reexamination proceedings** may be hand-carried to the Central Reexamination Unit (CRU) in Crystal Plaza ¾ Room 3D68.

3. Requests for **access** to patent application files may continue to be hand-carried to the File Information Unit (FIU) in Crystal Plaza 3 Room 1D01.

4. **Patent term extension** applications under 35 U.S.C. § 156 (Hatch/Waxman) may be hand-carried to the Office of Patent Legal Administration (OPLA) in Crystal Plaza ¾ Room 3D65.

5. **Assignments** may be hand-carried to the Assignment Branch in Crystal Gateway 4, Room 301.

6. Correspondence for the **Office of Enrollment and Discipline** (OED) may be hand-carried directly to OED in Crystal Plaza 6, Room 1103.

7. Correspondence for the **Office of General Counsel** or the **Solicitor's Office** may be hand-carried directly to the Office of General Counsel in Crystal Park 2, Room 905.

8. Correspondence relating to **interferences** may be hand-carried to the Board of Patent Appeals and Interferences in Crystal Gateway 2, Room 10C01.

9. Correspondence relating to **PCT international applications** prior to national stage entry (35 U.S.C. § 371) may continue to be hand-carried to the PCT Operations customer window located at Crystal Plaza Two, 8th floor. After national stage entry (indicated by the mailing of the Notice of Acceptance (Form 903)), correspondence relating to the national stage of the international application should be hand-carried to the Customer Window.

Part 2. Centralized Facsimile Number for Official Patent Application Related Correspondence

A. Central Number

Effective **December 1, 2003**, all patent application related correspondence transmitted by facsimile must be directed to the central facsimile number, **(703) 872-9306**, with a few exceptions below in Part B. Replies to Office actions including after-final amendments that are transmitted by facsimile must be directed to the central facsimile number. Unofficial correspondence such as draft proposed amendments for interviews may continue to be transmitted by facsimile to the Technology Centers (TCs). *See Fax Automation in Technology Center 1700, 1237 Off. Gaz. Pat. Office* 140 (August 29, 2000). Any official correspondence transmitted by facsimile in error to prior published facsimile numbers will be either automatically re-routed to the central facsimile number, or manually forwarded to the central facsimile facility for processing but may thereby incur a delay before being processed. The central facsimile number is capable of simultaneous receipt of facsimile transmissions from multiple customers. All other Office facsimile numbers remain unchanged. Prior published facsimile numbers will continue in operation until further notice. Applicants are advised that since correspondence successfully sent by facsimile transmission to the old numbers (as evidenced by a "successful facsimile receipt" or "transmission complete" message) will always be routed or forwarded to the central facsimile facility; no further action on the applicants' part is required. Do not send a duplicate facsimile to the central number.

See Patent Customers Advised to FAX Communications to USPTO, 1270 Off. Gaz. Pat. Office 151 (May 27, 2003) for a discussion of the correspondence that can and cannot be sent by facsimile transmission to the Office. Questions related to receipt of a facsimile to the Technology Centers should be directed to the Technology Center Customer Service representative listed in the above-mentioned notice.

B. Correspondence Which May be Sent By Facsimile to Other Than the Central Facsimile Number

The correspondence items below may be sent by facsimile to specific facsimile numbers as indicated as these items are for non-patent application related papers and a few exceptions to the general rule (for facsimile transmission to a central number).

1. Facsimile transmissions to the Office of Initial Patent Examination

New applications, correspondence being submitted for the purpose of obtaining an application filing date, and (except with issue fee payment) drawings may NOT be transmitted by facsimile. Other types of responses to notices from the Office of Initial Patent Examination (OIPE) and requests for corrected filing receipts may be transmitted by facsimile directly to the OIPE. The following is a list of official facsimile numbers for OIPE:

Facsimile number for corrected Filing Receipt Requests:	(703) 746-9195
Facsimile number for Response to Notice to File Missing Parts (drawings may not be submitted by facsimile):	(703) 746-4060
Telephone number for Customer Service:	(703) 308-1202

2. Facsimile transmissions to PCT Operations and PCT Legal Administration

An international application for patent or a copy of the international application and the basic national fee necessary to entry the national stage, as specified in 37 CFR 1.495(b), may NOT be submitted by facsimile. Correspondence in an application before the U.S. Receiving Office, the U.S. International Searching Authority, or the U.S. International Examining Authority may be facsimile-transmitted but the correspondence will NOT receive the benefit of any certificate of transmission (or mailing). See 37 CFR 1.6(d)(3) (referencing 37 CFR 1.8(a)(2)(i)(D)-(F)). Papers relating to international applications should be directed to one of the following numbers, if applicable:

Facsimile number for papers in international applications:	(703) 305-3230
Facsimile number for Response to Decisions on Petition	(703) 308-6459
Facsimile number for the PCT Help Desk:	(703) 305-2919
Telephone number for the PCT Help Desk:	(703) 305-3257

3. Facsimile transmissions to the Office of Patent Publication

Payment of an issue fee and any required publication fee by authorization to charge a deposit account or credit card may be submitted by facsimile transmission. When drawings are submitted with payment of an issue fee, they may be submitted by facsimile, although applicants are reminded that the facsimile process may reduce the quality of the drawings, and the Office will generally print the drawings as received.

The applicable facsimile numbers for payment of the issue and/or publication fee(s) by facsimile transmission are as follows:

Facsimile number for Issue Fee (and any Publication Fee) Payments:	(703) 746-4000
Telephone number to check on receipt of payment (with Office of Patent Publication):	(703) 305-8283

4. Facsimile transmissions to the Office of Pre-Grant Publication

Petitions for express abandonment to avoid publication under 37 CFR 1.138(c), requests to rescind a nonpublication request and notices of foreign filing should be directed to the Pre-Grant Publication Division. Questions regarding publication of patent applications (or rescissions of nonpublication requests) may also be directed by e-mail to pgpub@uspto.gov.

Facsimile number for PG-PUB correspondence:	(703) 305-8568
Telephone number for the Pre-Grant Publication Division:	(703) 605-4283

5. Facsimile transmissions to the Electronic Business Center

Requests for Customer Number Data Change (PTO/SB/124) and Requests for a Customer Number (PTO/SB/125) may be facsimile-transmitted to the Electronic Business Center (EBC). The EBC may also be reached by e-mail at: ebc@uspto.gov

Facsimile number for the Electronic Business Center:	(703) 308-2840
Telephone number for assistance from the EBC:	(866) 217-9197

6. Facsimile transmissions of Assignment Documents

Facsimile transmission to record an assignment or other documents affecting title is also permitted. This process allows customers to submit their documents directly into the automated Patent and Trademark Assignment System and receive the resulting recordation notice at their facsimile machine. Credit card payments to record assignment documents are now accepted, and use of the Credit Card form (PTO-2038) is required for the credit card information to be separated from the assignment records. Only documents with an identified patent application or patent number, a single cover sheet to record a single type of transaction, and the fee paid by an authorization to charge a USPTO deposit account or credit card may be submitted via facsimile. Please refer to the USPTO Web Site, at http://www.uspto.gov/web/offices/ac/ido/opr/ptasfax.pdf for more information regarding the submission of assignment documents via facsimile.

Facsimile number for the Automated Patent and Trademark Assignment system:	(703) 306-5995
Telephone number for the Assignment Division for assistance:	(703) 308-9723

SPECIAL MAIL STOPS FOR PATENT MAIL

Effective May 1, 2003, the United States Patent and Trademark Office has a new address for some mail. See Correspondence with the United States Patent and Trademark Office, 68 Fed. Reg. 14332 (March 25, 2003). The mail stop should generally appear as the first line in the address, but the term "Mail Stop" may be abbreviated "MS". Special mail stop designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail may be forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special mail stops. If any documents other than the specified type identified for each special mail stop are addressed to that mail stop, they will be significantly delayed in reaching the appropriate area for which they are intended. If no mail stop is included on the list below, then no mail stop is required for the correspondence (e.g., there is no mail stop for amendments with fees).

Requests for corrected filing receipt should be faxed to (703) 746-9195. Some correspondence may only be submitted via the Office's electronic filing system (EFS). Instructions on how to file and what can be filed via EFS are posted on the Office's Internet Web site http://www.uspto.gov under the Electronic Business Center section.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information for the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis optical disk series are available at all PTDLs to increase access to that information. It is through the optical disk systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) at the Sunnyvale Public Library in Sunnyvale, California.

SECTION 1.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
